

To whom it may concern,

Shinji Shimada

President of the Japanese Dermatological Association

Masashi Akiyama

Chairman of the Clinical Trials Committee

Establishment of the Committee on Clinical Trials of the Japanese Dermatological Association

Thank you very much for your continued support of our association.

We deeply appreciate your contributions to the medical field and development of innovative new medicines.

We would like to inform you that we have established a Committee on Clinical Trials for the Development of Innovative Medicines in Dermatology (Committee on Clinical Trials) since the 4th board meeting of 2015 (held on August 28, 2015).

Activities of this committee include the discussion and confirmation of trial plans. We will strive to increase the transparency and maintain the promptness of clinical trials through the activities of the committee.

Thank you in advance for your cooperation regarding this matter.
