Welcome Message

Dear Colleagues and Friends,

On behalf of the host society, the Korean Dermatological Association, it is our great pleasure to invite you to the 3rd Eastern Asia Dermatology Congress (EADC) which will be held September 24 – 26, 2014 in Jeju, Korea.

It is well known that East Asia has emerged as one of the most important areas and leading economic regions of the world over the past several decades. While this is a remarkable development, scientific exchange, including the medical sector, has not been so active compared to the economic development. In this sense, the Eastern Asia Dermatological Congress which has been hosted by the three national dermatological societies of China, Japan and Korea, has great significance for the dermatologists living in this area.

We have already witnessed a successful first and second congress in Fukuoka and Beijing. Following in the footsteps of these previous achievements, a wide variety of sessions covering both traditional and new topics in the field of dermatology will be included to provide an ideal platform for scientific exchange. We believe that this will be an excellent opportunity for all participants to develop their fields of interest as well as make friendships with dermatologists from different societies.

Lastly, we are confident that all of you will greatly enjoy and appreciate our choice of Jeju Island as the venue location. In contrast to bustling urban Seoul where most meetings in Korea are held, Jeju is a pinnacle of natural beauty that was recently named one of the New 7 Wonders of Nature. It is home to many amazing spectacles and formations including three UNESCO World Natural Heritage sites.

We are confident that the 3rd EADC will provide extremely rewarding and memorable experiences for all participants.
